Quick Response Team Steering Committee Minutes

Date 1/25/24 - Time 2pm

Discussion

- Introductions
- New attendees included representation from Kentucky Recovery Connections and Kristin Secor who will be interning with the Quick Response Team through UofL School of Public Health
- Keith, Tialisha and Blake from Kentucky Recovery Communities spoke about their organization and what they offer. I have included their latest flyer in this email. They are located at 3050 W Broadway from 9am-8pm with access to their office around the back entrance. Ph # (502) 541-9051
- Updated on the wonderful progress of our newest peer, Samantha, through the LRCC and introduced Kristin, our UofL intern who we are super excited to have on board with us
- Presented data pulled from our epidemiologist team putting numbers and figures to the work we do. I have included both reports on this email
- Meagan Kilkelly from LMDC mentioned having some folks like LRCC/KRC come and speak to the folks at the jail. Anybody else who may be interested can reach out to Meagan at Meagan.kilkelly@louisvilleky.gov
- Naloxbox distribution is still ongoing so if anyone knows of anywhere in town that could benefit from a naloxbox they can reach out to alena.huber@louisvilleky.gov
- Shoutout to Rolling Recovery, LRCC, Goodwill, ARC, Arthur St Hotel for some super awesome collaboration work done over the last few months! Great to witness!!!
- Feel free to reach out to us with anything you may want to chat about. Have an awesome weekend!!!!

Our Vision: A healthy Louisville where everyone and every community thrives.

Our Mission: To achieve health equity and improve the health and well-being of all Louisville residents and visitors

Our Values: Collaboration Innovation Grit Integrity Quality

QRT Historic data for Performance Measurement, 2023, Q1, Q2, Q3, Q4

01/03/2024

Notes:

1. ^tFormula = $\frac{\text{Number of patients visited within 72 hours}}{\text{No. of Incidences}} \times 100$
2. [§]January percentage is overestimated as the dataset includes Visit dates for Incidents from December 2022.
3. ^{§§}December percentage is underestimated as the Initial visits for Incidences from final week of December are currently underway.
4. ⁱThe total number of Narcan units distributed.
5. ^{*} This is a total number of people (patient / Family) who were given Narcan.
GAP: To understand whether Narcan given to patients and family is mutually exclusive.
6. ^αThe total number of patients and total number of Family members / friends spoken to.

Q1: January - March 2023

Month	% Of patients who express interest to services are linked to services	% Of patient visits completed within 72 hours ^t	# Of TOTAL Narcan units distributed ⁱ	# Of patient / Family provided with Narcan [*]	# Of Patients ^α experiencing overdose spoken to	# Of family members ^α of people experiencing overdose spoken to
January	NA	82.3% [§]	50	21	15	41
February	NA	86.4%	56	20	20	31
March	NA	84.5%	46	19	17	31

Q2: April – June 2023

Month	% Of patients who express interest to services are linked to services	% Of patient visits completed within 72 hours*	# Of TOTAL Narcan units distributedⁱ	# Of patient / Family provided with Narcan*	# Of Patients^α experiencing overdose spoken to	# Of family members^α of people experiencing overdose spoken to
April	NA	83.3%	51	14	19	21
May	NA	84%	34	16	12	24
June	NA	82.4%	102	35	7	31

Q3: July – Sep. 2023

Month	% Of patients who express interest to services are linked to services	% Of patient visits completed within 72 hours*	# Of TOTAL Narcan units distributedⁱ	# Of patient / Family provided with Narcan*	# Of Patients^α experiencing overdose spoken to	# Of family members^α of people experiencing overdose spoken to
July	NA	82.3%	136	36	8	23
